

Vr-700R

Hybrid High Performance Medium Tonnable Plastic Injection Moulding Machine

Vr-700R

Victor Fortune introduces the new precision built, high speed VR series with a tonnage of 350 -1 300 tons. By using the advanced V8800 controller and semi-closed looped hydraulic system, the new VR range can match your requirements of quality, high speed production and precision moulding.

Machine Weight	tons	33.9
Actual shot Weight-p.s.	g	1884 2385 2944
Injection Pressure Max	kg/cm ²	2252 1779 1441
Screw Diameter	mm	80 90 100
Clamping Force	tons	700
Max. Clamp stroke	mm	930
Min/Max Mould Thickness	mm	400 - 1000
Tie-Bar Distance (HxV)	mm	960 x 960
Machine Dimensions	m	9.936 x 2.290 x 2.600
